Yes, it is true that thanks to Hitler, the scientists have discovered that smoking causes lung cancer. The reason behind it is simple - the one who came to conclusions about the harmful effects of smoking were the adult German scientists in his services. And yes, Hitler ready did bring car to every German household and thanks to that, one of the biggest automobile manufacturers in the world has been established. Das Volks Auto - as he named it - was meant to be available to the citizens of the Third Reich for 990 Reichmarks, which was at that time the price of a small motorcycle. And yes, it is true that he was nominated for the Nobel Peace Prize! But that doesn't make him...[Read More](#)
